CEO chez IHMA Europe

Monthey

Résumé

Stephen is CEO of IHMA Europe Sàrl based in Monthey (Valais), a wholly owned affiliate of International Health Management Associates, Inc. IHMA Europe Sàrl has state-of-the-art laboratories and is based in Monthey, Switzerland and began operations in February 2009. Prior to joining IHMA, Stephen held several key positions in the pharmaceutical industry spanning around 15 years with focus in antibacterial and antifungal research and development. His industry experience has come with his affiliations with Arpida (Switzerland), GlaxoWellcome (Italy), Hoechst Marion Roussel (France) and Marion Merrell Dow (Italy).

Prior to joining industry, Stephen earned his BSc (hons) in Microbiology (University of Aberdeen), PhD in biochemical toxicology (University of Dundee) and his post-doctorate on fungal catheter biofilms at the University of Glasgow. Stephen has regularly published at scientific conferences (>650 posters), in international peer-reviewed journals (>90 articles) and is co-inventor of a number of patents. In addition he is a reviewer for multiple journals and has actively participated at CLSI meetings since more than 15 years.
